On the 14th Aug, the entry is the same for the same meant, and interlined in the same manner; on the 15th Aug, the entry is thus; the same; on the 19th Aug, the entry is thus; 185/84.56

On the 20th of Aug. the entry is thus:

On the 21st Aug. the entry is thus:

141 On the 22d August the entry is the same as regards the faures "141." On the 23d Aug. the same. On the 27th Aug. the entry of "141" is omitted entirely. The figures stand thus:

150,903 4°.

Which addition is erroneous, I find, as it requires 141,000 to make the amount of his addition. On the 25th Aug the faure "141" are restored and entered as they were on the 26th. They are also entered in the same manner as the 28th Aug. On the 30th has item is again omitted. On the 1st Sept., 1851, the entry is thus:

A NEW WAY TO GET A RIDE .- On Monday A NEW WAY TO GET A RIDE.—On Monday afternoon a Police Officer of the Twentieth Ward, with a friend, jumped on board one of the Eighth-av. cars, and when called upon by Mr. R. E. KNAPP, the conductor, for their faire, the officer exhibited his start, and was permitted to ride free; not content with this, however, he skyly passed the star to his companion, who represented to Mr. KNAPP that he also was an officer. The movement was, however, observed, and by close questioning on the part of the conductor, who is an ola police officer, the frund was detected. A complaint will be preferred by Mr. KNAPP against the officer before the Mayor, and the matter will be investigated. The individual who tried to pass himself off as an officer is also liable to arrest and imprisonment.

CHARGE OF FALSE PRETENSES.—Officer WM. H. STEPHENS, of the Lower Police Court, yesterday returned from Owego, Toos County, having in his custody two men named WM. L. MARVIN and NATNAN NEWTON, who stand charged with having on and after the 19th of June last, obtained by false pretenses dry goods amounting to \$521.25, from HENRY PHILLIPS, Esq., merchant, doing business at No.87 Williamset. Mr. PhilLIPS, in his affidivit, states that MARVIN called at his store at the time abovenamed and represented his name to be Newton and that he was a clerk for a Mr. MARVIN, a wealthy man, doing business at Owego, and was purchasing goods for him. He referred Mr. P. to a firm in Water-st., who confirmed the truth of his statement, and Mr. P. was induced to let him on credit goods to the amount of \$700 in value. Some time afterward, both Nuwron and MARVIN called upon him, and, as is alleged, by conspiring together have induced him to sell them another bill of goods. Mr. P. also sets forth in his affidavit that the accused have, by similar fraudulent means, obtained about \$20,000 worth of goods from various merchants in this City. The accused are in custody, awaiting examination. CHARGE OF FALSE PRETENSES .- Officer WM.

PREVENTION OF STEAM BOILER EXPLOSIONS

T. J. SLOAN'S Patent Hydrostat indicates with uncerting certainty the exact hight of the water in the boiler, and keeps the same at the required level, by furnishing a supply commensurate with the evaporation. It also gives instant notice to the eye and ear of any accident to the pumps or feed connections; and, if not heeded, it sounds a general alarm in time for the first to be withdrawn from the furnace. In consequence of the uniform and constant feed, the greatest possible amount of heatises tracted from the exhaust sceam—a result which has never before been strained; willse the saving of time and fuel, and the protection of the fire surfaces, tubes and fuel and the protection of the fire surfaces, tubes and fuel against the disastrous effects of low water, prove the Hydrostat to be, not only an instument of safety, but a great economist.

The Hydrostat is placed by scientific men among the most importent inventions of the present century; while all who have witnessed its operations, pronounce it the only successful effort ever made for the security of life and property against the mighty power of Steam.

It is constantly in operation on the boiler at the Fair, and at the Manufactory of the undersigned, where it may be seen by the curious or subjected to the most scientific and practical investigation.

Persons at a distance may obtain further particulars by PREVENTION OF STEAM BOILER EXPLOSIONS

communicating with the undersigned, to whom all orders for the Hydrostal should be addressed. The capacity of the boiler should be named by the applicant. Patented Dec. 15, 1851. SLOAN & LEGGET, Proprietors and Manufacturers, 27 Empire Iron Works, foot of Samuel Legger, East 25th-st., New York.

histories, used menting and violent language, charging defendant with
histories, used menting and violent language, charging defendant with
histories, and invining the same set of the poace—that defendant took hold of plaintiff
by the arm and told him to leave the store—and led him to the stantbut with no more force than was necessary. In reply, plaintiff says
he never released to take prode except on good grounds of refusal—
and denies the other part of the answer.

cast were about 41,000. Mr. Hodge, the Mineralogist, has returned from the Ulster Mine with a very favorable report. He found the discovery of copper we, noticed a few days since, quite as wonderful as was reported, and pro-nounces it a true vein. The Company propose to sink a shaft in the valley about two hundred feet from the present shaft, and expect to find the vein also there. The advices from the "Warwick" are still favorable.

The yield is 8 tuns of ten per cent, ore per day. A later letter from Cuba speaks encouragingly of the "Esperanza" and "San Augustine Mines." Considerable quantities of ore are being taken out. The Dry Goods trade has been rather more

active during the last than in the preceding week. The chief demand is, however, for French Dress and Milli-

nery goods of medium and high qualities. Stocks do

not accumulate except in one or two articles,-Gloves and Linens for instance-and prices are well sustained. Unbleached Sheetings and Shirtings are in moderate de mand at steady rates. Heavy goods at 71 and light at 6ic. for good styles. The lighter goods are scarce. Bleached are in good supply, with a fair demand, at regular prices. Drills are active, mostly of browns, for export. Prices are firm at 71 @74c. for brown, 8c. for bleached, and 9c. for blue. Osnaburgs are in fair demand at full prices. Denims are dull at 8 je., and this rate is firm only to the prevention of sales. Stripes are scarce and steady. Ticks are very active, with a diminished stock, and prices are firm. Cotton Flannels sell quickly at regular rates, and with a scanty supply. Printing Cloths are firmer. The demand is limited, but the supply is also limited, at 3) \$54c. Prints of the best qualities are active, and sell at full prices. The stock is very light, notwithstanding the large production. Ginghems are steady at 10@10jc., with quick sales. Delsines are firm, but with an abatement of demand. Stocks, however, are light.— Cloths are steady in price, with a fair demand, at \$1.39; 23 75. Cas-imeres are remarkably steady for the season. Heavy Winter goods are in quick demand at full rates; fine Blacks have sold well. Fancies are less active, but with little heaviness. Tweeds are in steady demand for the season. Kentucky Jeans are inactive, with a large supply. Linseys are firm at 18c. @19c., but dall. Flannels are scarce and wanted. Blankets active, firm, and light in stock. Desirable french goods are still wented to a large extent, and prices are buoyant. Silks, with a better supply, sell readily at the fullest rates. Dress Goods are scarce. The arrival of the Franklin occasions increased activity in the distribution of the eargo, mostly already sold. The Delaines received especially are much wanted. Gloves are heavy from over steck, but Ribbons and millinery goods are very active. Cloths are moderately active, at steady prices. British goods are steady, with a fair de mand. British dress goods have sold more freely this sessen, and at better prices. Linens are rather in over stock and dull. Blankets are active. Cloths are moderately active and firm. Spring goods im portations are increasing, and a large business doing in light goods for the far markets. We have received the statement of the New-

Orleans Fanks, showing their condition on the 25th of September last. Their circulation, specie, cash assets and cash liabilities were as follows:

The Washington correspondent of The Philadelphia Ledger states that the failure of the Union Bank at Washington caused a general call for specie upon the individual banks of that city. He says:—
Selden's, Wither's and Latham's banks enjoyed such a
degree of confidence in the public mind that the eagerness for redemption soon abated. The Patriotic Savings' Bank, of which JOHN F. CALLAN, Esq., is the Preings' Beck, of which John F. Callan, Esq. is the Fre-sident, the junior of the former, but also abundantly es-tablished, stood the pressure cheerfully, promptly and without flinching, until every body became satisfied of its ability to meet all demands, and soon every thing was quiet there. The Bank of the Republic, (Balley, treasurer,) had a tremendous run, but up to the closing of this has redeemed every note in specie and says he will advertise in the afternoon papers to keep open until eight o'clock to-night. I have heard, after careful in-cuits of no other stomers or suspension.

River Enilroad:

The work of laying down a double track, to extend ultimately throughout the whole length of the road, has been commenced and is vigorously prosecuted on three different sections; the first from East Albany, south; the second firm Tivoli to Hudson, and the third from Fishkill Landing to this place. On the Northern section it is nearly finished as far down as Castleton; between Tivoli and Far Commit will seen be ready for the rails and and East Camp it will soon be ready for the rails, and also trom Fishkill Landing to New-Hamburgh. The Di-rectors have decided to have it all completed from this place to Peckskill, to make a continuous double track to New-York, as soon as possible. The different sections of double track will be brought into use as fast as com-

The Saratoga Whig says that the work of the Albany and Eagle Bridge Railroad is in rapid progress along the whole line, and is nearly completed, and will soon be in operation as far north as Waterford, passing through West Troy and Cohoes. The abutment the bridge over the Hudson River, three miles north of Waterford, will soon be finished and ready for the superstructure, and much of the grading on either side of the river, for several miles, has been finished. It is predicted that this road, when completed to Eagle Bridge, will do an extensive and profitable business.

The Boston Journal says Money rules at from 627 P cent. for first class Loans, either on call or paper of good stamp. No trouble, however, is experienced in procuring reasonable accommodations at the Banks. Stocks are feverish and irregular, particularly in the fancy line.

At Philadelphia the is no change in Money.

The citizens of Dubuque, Iowa, decided on the 29th of September, by a vote of 429 to 9, to subscribe to one hundred thousand dollars of the Stock of the Southern Wisconsin Railroad. The citizens of the place had previously subscribed fifty thousand dollars to the work.
